

Quality Stationery Products

WE ARE WRITING A SUSTAINABLE FUTURE

At Soni Polymers Pvt. Ltd., sustainability is at the heart of everything we do. From eco-friendly production practices to renewable energy and waste reduction, we are committed to creating a greener future while delivering high-quality products.

Sustainability Initiatives

Recycled Plastic (>30%): Incorporating above 30% recycled plastic in products and processes to reduce waste.

Recyclable Packaging with Eco-Friendly Inks: Using recyclable cardboard for packaging and eco-friendly inks to minimize environmental impact and promote sustainable branding.

Solar Energy: Utilizing over 500 KW of solar power to transition to renewable energy sources.

Electric Vehicles: Phasing out traditional vehicles in favor of EVs to cut carbon emissions.

Water Conservation: Implementing water harvesting and using water-based adhesives and inks.

Planting 10,000+ Trees Every Year: Committed to planting over 10,000 trees annually to enhance bio diversity and offset carbon emissions.

Recycling Production: Waste Implementing waste management systems to recycle leftover paper, plastic, and other materials from the production process, reducing landfill contributions and promoting resource efficiency.

Minimal Paper Use: Digitizing operations to significantly reduce paper usage.

Refillable Markers and Inks: Manufacturing refillable markers and inks to replace single-use markers, reducing plastic waste.

At Soni Officemate, we take pride in our journey from a humble beginning to becoming a trusted name in stationery and office supplies. Founded with a mission to provide innovative and reliable products, we started as a small business catering to local needs. Over the years, we have grown by focusing on quality, customer satisfaction, and sustainability. Our range of products reflects this vision—whether it's refillable markers, eco-friendly inks, or organizational tools, each item is crafted to empower creativity and productivity. Sustainability remains a cornerstone of our growth as we continuously strive to minimize environmental impact through eco-conscious manufacturing practices. This progress would not have been possible without the trust and support of our customers, partners, and team. Together, we will continue to redefine excellence in the industry and shape a better future for workspaces worldwide.

- Prakash Soni

Chairman, Soni Officemate.

SONI POLYMERS PVT. LTD.

With over 35 years of expertise, Soni Polymers has been a pioneer in producing top-quality stationery products. Our commitment to innovation and quality has made **Soni Officemate** a trusted household brand. Guided by our vision of creating iconic, affordable, and cutting-edge products, we continuously adapt to market demands with excellence. **Facilities and Capabilities** Based in Nagpur, our ISO 9001-2015 certified facility spans **4,00,000 sq. ft.** and is supported by 450 skilled staff across departments like R&D, CAD/CAM design, moulding, and packaging. - **Infrastructure:** Advanced facilities with over

60+ injection moulding machines

40+ blow moulding machines

ONLY SURGICAL MARKER STERILISED WITH GAMA RADIATION

"Operation Theatre Tray is not Complete Unless It has 'Surgical Skin Marker Pen' "

Before Gama Radiation After Gama Radiation

FAQ ONLY

Given below are the frequently asked questions of surgical markers along with their answers.

Question no.1: Within how much time should the pen be utilized (assuming the pack is not opened) expiry date?

Answer: 18 months, unless the pouch is not opened.

Question no. 2: Is there any indicator of sterility, In case there is micro pore in the pack Of skin marker?

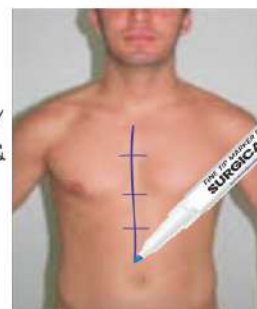

Answer: The pouches are thoroughly checked for leak. Hence the pouches are air tight. During the gamma radiation the indicator red sticker signal is affixed during the exposure of 18 hours of gamma radiation at Bhabha Atomic Research Center, which gets converted into yellow sticker indicating total radiation is completed & the product is sterile.

Question no.3: Can it be reused?

Answer: It is one time use product for marking on skin. However it can be used as a regular writing pen for signing and for writing prescriptions.
